

CHANGE THE WORLD ON A MOLECULAR LEVEL

JOIN THE GENENTECH COMMUNITY COLLEGE INTERNSHIP PROGRAM & IGNITE YOUR POTENTIAL!

We're seeking community college students for summer internships. We want to empower bright and driven students excited for careers in biotech and pharma.

What we offer:

- 12-week, full-time (40 hours per week) paid internship
- Challenging and impactful projects
- Work with some of the most talented people in the biotechnology and pharmaceutical industries
- Professional & personal development opportunities, including networking, workshops, and mentorship
- Exposure to our medicine-making pipeline

Who you are:

- Community college affiliate (currently enrolled at a community college and completed 1 semester OR terminal A.S./A.A. degree holder within 1.5 years post-graduation)
- Eager to learn more about biotechnology and pharmaceuticals
- Must have a high school diploma or GED at the time of application
- All majors and skill sets are welcome

Interested? Check out go.gene.com/cclInternshipProgram or scan the QR Code.

We firmly believe that embracing diversity and inclusion drives innovation, improves scientific and clinical outcomes, and contributes to equitable healthcare access for all.
